RICHARDSON'S DICTIONARY OF THE ENGLISH LANGUAGE,

Parts III and IV this day published

There is not a work, either of general or national utility, or philology in particular that has so largely united the suffrages of the public press in its favor as this Dictionary Both in Europe and in America it has received the meed of general approbation The world has owned the principle of Horne Tooke that each word had originally but one meaning and that all the result of combination modification or the mutability to which language is liable In this work the Dictionary the Compiler has adopted the rule which Dr Johnson originally proposed for his own government, viz that of giving first the primitive meaning, then the consequential and afterwards the metaphorical, accompanying his definitions by quotations, commencing with the earliest authorities and bringing them down to the most recent dates Mr Richardson has prosecuted his task with fidelity and skill his research has been most laborious as well as judicious and he has bestowed, in this work a boon to literature greater than any that has been presented since the days of Johnson himself

The publication of this work which was suspended in consequence of the pressure upon the mercantile world is now resumed and the work being stereotyped will be completed in a few weeks

REMOVAL.

The Office of the Whig and Courier has been removed to the Rooms over the Store of Messrs. Smith & Fenno, [illegible] below the former stand. Entrance No. 13, West Market Place.

[Correspondence of the Whig & Courier.]

Boston, Nov. 16, 1838.

New York Election. Affairs in Canada. The Theatres. Public Amusements. Celia's Features. Lyceum. The Pavilion, &c.

DEAR SIR. The result of the New York election is the wonder of all parties. It is the topic of conversation both in and out of doors. The Loco Focos themselves regard it, I am satisfied, [illegible] Van to [illegible] of their most proud schemes; nor will they, as they have been wont, point you to Maine, lest you in return tell them of New York.

Next to politics, of interest perhaps, is the recent disturbances in the Canadas. The contest is unequal, yet many are of the opinion that the Patriots must triumph. Thus far they have been successful; and if they are half so numerous and powerful as they have been represented, it is not impossible that they may, at a day not far distant, [illegible] to throw off the burden of British rule, and be free. What renders this the more probable, is the fact that the "Home Government" is *divided*, as to the course to be pursued toward the Colonists. The resignation of Lord Durham will have, without doubt, an important bearing upon the future operations of the patriots, although no one is so short sighted as not to have discovered ere this, that they were preparing for the present attack months before his determination to return to England was [illegible] rumored.

It would seem that the "shedding of man's blood by man," is becoming one of the commonest things of the day. Our country is indeed unfortunate; and who can foretell all the evils which are likely to result from repeated violations of the laws? The Mormon war, as it is styled, bids fair to prove doubly more serious than was ever anticipated; and must, unless steps are immediately taken to suppress hostilities, [illegible] much blood-shed.

The Theatres, as is ever the case during the fall and winter seasons, are in full tide of operation; and if the plays are not always the most desirable, and the players no more than second or third rate, it matters not; there are those who will go. At this time, the popular opera La Sonnambula, is all the rage. Miss Shirreff, as Amina, acts well her part, and there all the honor lies. She has a sweet voice, and is universally admired. Seguin, as Count Rodolpho, elicits great applause. His style of acting however, is far from perfect. Independent of a full and rich bass voice, which, to be appreciated must be heard, I am disposed to believe he possesses few attractions common to celebrated vocalists.

Celia's Features at the Odeon are well attended. Mr. C.'s opportunities for observation among the Aboriginals of North America, have been greater, probably, than any other traveller. He [illegible] to understand thoroughly their character, and no one who hears him can fail to be gratified as well as instructed. He is about to publish a book.

The introductory lecture before the Boston Lyceum, by the Hon. Caleb Cushing, of Newburyport, was a masterly effort. You will find a synopsis of it in one of the Boston papers.

Of the public houses, commend me to the Pavilion. It is outrivalled by not one. Mine host, Coleman, is deservedly popular; and I feel assured that no person who has paid him a visit, has had cause to find fault. Then there is Russell, who is active, intelligent, kind, attentive, and obliging. I say again, commend me to the Pavilion. It is the home of the traveller, where he is he abideth and partaketh with all of that which [illegible] to him [illegible].

Yours, &c.

BOUNDARY COMMISSIONERS.

The Commissioners upon the North Eastern Boundary line returned to this city on Saturday evening. We understand that they found very distinctly marked highlands at the point where the waters divide between the St Lawrence and the Atlantic Ocean, and all the country north of the St. John river extremely mountainous. The country where the waters divide is not level and swampy, as has been represented and believed by many, but [illegible] and dividing highlands, [illegible] according to the terms of the treaty of 1783.

We understand the duties of the Commissioners have been very laborious. They found the snow at one time on the highlands, ten inches deep.

We shall look with intense interest for their report, which will probably be made public at the [illegible] of the [illegible] Legislature.

DEPARTURE OF MOREHEAD, IN NEW YORK.

[illegible] at Tammany Hall, [illegible] evening for the purpose of discussing the affairs of Canada, and proposing measures for the relief of the Canadians. Dr. McNevin was called to the chair, and the meeting was addressed by Theller, and one of the Bermuda exiles who arrived in New York the day previous, with Dr. Wilford Nelson and Bouchette. The New York Express says, the meeting was, for the most part, orderly and dignified, the very reverse of the meeting Tuesday evening at Richmond Hill. The Saloon was full to overflowing, and [illegible] very pleasantly, as it [illegible] Tuesday evening, had it not been for the appearance of Fanny Wright in the hall, and her manifest ambition to take part in the discussion. Several committees were named in the resolutions and the proceeding of the meeting seemed to show that the friends of the Canadian Patriots in New York had organized a Society for the purpose of going all lengths in support of the pending revolution in Canada.

MICHIGAN ELECTION. We have returns from 10 counties in Michigan, which show a majority for Crary, the locofoco candidate for Congress, of 356. The same counties last year gave him 749 majority. Partial returns from two other counties are wanting. The Express says there is a great Whig gain, and probably a majority in the new legislature.

DELAWARE ELECTION.—In consequence of a split among the whigs in Sussex county, Thomas Robinson, locofoco, has been elected to Congress by about 43 majority.

The New York Express re-publishes the list of members of Congress elected in New York, from which it appears that the Whigs have elected 21 members, Van Buren 19. Last year the Whigs had 10 members, Van Buren 33. Whig gain 11.

We have received a copy of a new Mercantile and Banking Paper, issued at 156, Broadway, New York, entitled "*Sylvester's New Reporter.*" A gentleman has just arrived in this city for the purpose of soliciting subscriptions to the work.

The Steamer Liverpool which sailed for New York seven days previous to the Great Western has not yet arrived, and some anxiety is beginning to be felt there respecting her. Among the passengers, as reported in the papers are Messrs. John Van Buren, B. B. Thatcher, and F. O. J. Smith.

Case of Stewart. The application of William Stewart for a new trial was argued before the Baltimore City Court on Monday, and denied; on the ground, 1st, that there was nothing in the affidavits read in support of it that weakened the evidence given on the trial, and, 2nd, that the granting of a new trial, as it must be for murder, would be a violation of that legal maxim which declares that the life of no person shall be twice put in jeopardy for the same offence.

The sch Cygnet, of Frankfort, from this port for Boston, loaded with lumber, was run into off Cape Ann by the steamer Portland, on her last from Boston, and immediately filled with water. "Show your light, in the night."

GEN. HARRISON. The Anti-Masonic Convention at Philadelphia, has nominated Gen. Harrison as a candidate for the Presidency, and Daniel Webster as a candidate for the Vice Presidency.

The Portland Advertiser, says that no choice was effected for a President of Bowdoin College, at a late meeting of the Board of Trustees and Overseers. The meeting adjourned to May next.

The number of deaths by strangers fever, at Charleston, from the commencement to the termination of the epidemic was 352.

ENIGMA. The 17 C's, corresponding with the 17 wards in the city, an enigma for the Locofocos to solve: C C C C C C C C C C C C C C C C C.

As the Locos have not solved the above enigma, published by us on Saturday, we will do it for them.

LATEST FROM CANADA.

[illegible] at Napierville [illegible] 10th [illegible]

"The rebels, to the number of 2000, evacuated the town about two hours ago, and about the same number had previously gone off, many of them having thrown away their arms. The cavalry are now in pursuit of the former, on the Chateauguay road. Col. Love's column reached the town from St. Valentine, at the same time with the head quarter division."

The New York Commercial Advertiser says:

"The affairs at Lacolle, were of more consequence than we had supposed. The whole strength of the rebels was engaged in the first attempt made on the 6th by Cote and Gagnon. The great object was to open a communication between Napierville and Rouse's Bay, where the rebels had a schooner, on board of which was their principal supply of arms, consisting of muskets and a six-pounder. The attacking force consisted of about 400 men, and the attack commenced about 10 o'clock on the morning of the 6th. The defeat of the rebels was complete, and they left in the hands of the volunteers their six-pounder, about 250 stand of arms and a quantity of ammunition. Their loss was 11 killed and 8 taken prisoners. The wounded escaped over the line. Two of the volunteers were killed and two wounded. As the firing was distinctly heard at Rouse's Point, and as it was not long before the defeated rebels were seen making toward the lines, the small United States forces, some 30 men, stationed there, turned out to prevent any violation of the neutrality, and picked up 75 muskets which the refugees dropped on entering the United States territory. The same party seized also the vessel with the rebel munitions of war, consisting of ammunition and cannon balls.

On the morning of the 7th, the attempt was renewed by Nelson himself, with 800 well armed men from Napierville, and 200 more with swords and pikes. The attack this time was from Odletown, which was defended by 200 volunteers under command of Col. Taylor, whose official account says:

"The insurgents mustered 1000 strong under the personal command of Dr. Nelson. They attacked my advanced guard at Capt Weldon's, at about ½ to 11 a. m. upon which I immediately directed the concentration upon Odletown church, of the small force 200 men under my command.

The enemy extended around us, and kept up a sharp fire, which was sharply answered. After an action of 2½ hours, during which several sallies were made by the volunteers, the insurgents retreated, leaving 50 dead and carrying off several wounded.

I regret to say that Capt McAllister and four men have fallen, and that Lieut. Odell and nine men have been wounded, none of the latter, however, are seriously injured."

A letter published in the Prescott (U. C.) Sentinel, states that an American soldier was shot near Cornwall on Wednesday previous. He was one of a company of Col. Worth's regiment going from Ogdensburg to French Mills. They were hailed, but did not answer, and the volunteers taking them for "rebels," fired.

The New York Commercial of Thursday eve says, a gentleman who left Montreal on Friday, mentions that three thousand troops were to leave the city on that day, to scour the whole of the country infested by the insurgents. Sir John Colborne was to command them in person.

FROM LOWER CANADA. The outbreak in Upper Canada was probably intended to be simultaneous with the *emeute* in the Lower Province, which, by our last accounts, has been extinguished, at least for the present. Messrs Nelson and Cote have fled into Vermont, and General Van Rensselaer has retired from the line, to a greater distance from danger. Sir John Colborne has scattered the insurgents with 3000 regulars, and caused a considerable number of houses to be burned, belonging to noted rebels.

From the Boston Transcript of Saturday.

IMPORTANT FROM UPPER CANADA. The New York Commercial publishes the following letter:

"Oswego, Nov. 13, 1838.

"We have had for a short time past, in the village, about a hundred fine fellows, strangers, who seemed to have no occupation, but who behaved with great propriety, and gave cause for complaint to no one. Their appearance was quite respectable, and some of them was evidently gentlemen. The United States steamer had been detained here several days by a heavy gale, and sailed yesterday for Sackett's Harbor. Every soul of those I allude to went in her, and one hundred and fifty more of the same class of people. The latter appeared, when the United States gave notice of sailing, like Roderic Dhu's men at the sound of the whistle in the glens. Where the d—l they came from, I cannot say. They must have been lodging about in the vicinity. At Sackett's Harbor they are to pick up about 300 more, as good as themselves, and who, I know, are there, and it is said upon the St. Lawrence, a farther reinforcement. The point of debarkation is the neighborhood of Prescott, and the fort must surrender at once, for I am told there are less than 50 regulars in it. The point is good; it commands the town and country round about, and I am told the best passage on the river.

"We are full of reports as Macbeth's castle, and I apprehend most of them will prove true. This seems to be a well organized business, and I think they will succeed. They are said to have military men among them, and it is probable that Papineau has not been negligent in that particular. The party left here on Sunday morning. On the evening previous, a handsome, military looking man, of about 35, arrived here, who, from several indications, was thought by all to be their leader. He was a Pole and had witnessed the affairs at Warsaw. It is stated confidently, by those who pretend to be in the secret, that the movements in the extreme East and West were to be simultaneous, and that we shall soon hear that the Patriots have occupied Malden. If this is so, and they early as it is said they will attempt the works of Niagara, and the St Lawrence expedition succeeds, there will be an end of the British power west of Montreal by the 1st of January. I must add that two schooners sailed for the St Lawrence on Saturday night, which I have no doubt were loaded with arms provisions, ammunition, &c. received in [illegible] have [illegible] the tenders of the party."

[Since the preceding was in type, we have conversed with a gentleman who informs us that he [illegible] with a gentleman from Ogdensburg, opposite to Prescott, who stated [illegible] that the Fort [illegible] hundred but [illegible] all gone.]

[illegible]

THIRTY DAYS LATER FROM LONDON.

[illegible] New York in 19 days from Bristol. She left her last port, and passage in 12 days. The following extracts are from the New York papers.

The Liverpool Steamer sailed from Liverpool at the appointed time, Oct. 20th. She was seen on the 21st at 8 A. M. with her engine stopped, and blowing off her steam. She was seen again on the same morning at 11 A. M. Tusker bearing W. N. W. distance about nine miles, going at between 9 and 10 Knots an hour against a strong head wind and sea.

It was [illegible] that the dissolution of Parliament would be immediately held in consequence of Lord Durham's resignation, of which intelligence was arrived out by the Great Western.

In relation to Canada, the Sun of the evening of the 20th remarks: "The arrival of the Liverpool packet ship *George Washington*, and the London packet ship *Wellington* is looked for with great anxiety, as it is generally expected that they will bring some important information from Canada; and, as the wind has continued blowing from the westward for three days past, we may expect to hear of the arrival of one of them to-morrow."

Despatches from the British government for Lord Durham, were sent off by the steamer Liverpool they were answers to those sent out by the Great Western.

Intelligence has been received in London, of the death of Sir Robert Grant, Governor of Bombay.

The news from Spain was still unfavorable for the Queen. Perdinas, one of her generals, had sustained a severe defeat from Cabrera, who had also collected an immense amount of booty with which he was slowly retiring to join the main army of the Carlists. General Alaix has been appointed Minister of war.

Fanny Wright has issued her card. She has a good deal to say about the people how much like the following does the groaning article of her organ in this city, on the result of the New York election, read.—

From the New Era.

TO THE PEOPLE.

Let me, as an old, and I think, somewhat tried friend, address a word not to a triumphant faction, nor to discomfited parties, but to you—ever firm and undaunted people! In this country, as elsewhere, factions may often triumph, and parties succumb; but HERE *the People are never vanquished.* They are not so at this hour nor are they, whose trust is in the people and in the people only, cast down or dismayed.

Let the people of this city see to turn the present catastrophe to account, and they may receive from it a salutary lesson. That lesson I propose to interpret, according to my views of it, on to-morrow, Sunday evening, and hereby invite all honest friends of American independence, national union, human liberty, and popular sovereignty, to meet me in Concert hall at the usual hour (see advertisement); when I shall take for my subject

Chosen in open day and routed on false ground not beaten. People! stand fast and do not go to sleep.

FRANCES WRIGHT DARUSMONT.

MANURE.

Feed your plants and they will feed you.

It is a subject of much regret that more vigilance and care is not taken by many farmers to increase the quantity of their manure. It is the very base of their prosperity; without it little can be achieved that is important or valuable; with it, every thing can be accomplished that is within their reach. By the use of lime applied to grass lands, and great care in bringing all decomposable articles into the dung heap, the quantity on some farms has been doubled in seven years. After it has been obtained it requires a little skill and judgment to preserve its most valuable parts from being drenched and washed away by frequent rains; for although it is not best to keep it too dry, yet it is much more frequently suffered to become so often wetted with drenching rains as to wash away the most nutritious portions of it. Dung that has remained under open sheds where it was but partially exposed to the elements, has been found to be much richer in quality than that which was entirely exposed to the rain. In some situations, much is lost by water running through barn yards during heavy showers, and in some cases they are perfect quagmires for half the year, rendering it disagreeable, if not dangerous to approach a stable door. This state of things constitutes an absolute nuisance, and ought to be provided against by every farmer who has a proper sense of propriety, and a due regard to the female members of his family, who are obliged, twice a day, to trudge through wet and filth to milk the cows.

The autumn is the proper season for making suitable footways to stable doors, and other arrangements for preserving the manure to be made during the approaching winter from loss by washing, and to protect it from being filtered by rains till it loses its most valuable component parts. A shrewd old gentleman of Montgomery county, estimates the importance of a farmer by the number of loads of manure he makes annually. A fifty load farmer is rather a small article; one of a hundred loads stands a little stiffer; one of one hundred and fifty loads holds up his head pretty well and begins to be quite respectable; and the two hundred, two hundred and fifty, and three hundred load farmers are entitled to have the world Mr as a prefix to their names, and the letters Esq placed after it. These are the solid yeomanry, in his estimation; the men of substance and stamina, out of which, in his opinion, any useful article can be manufactured, even up to a Congressman or Governor. Whether he is altogether right in his way of estimating farmers, we must leave others to judge; but one thing is pretty certain, that it is a good thing for every farmer to have an abundance of manure to furnish nutriment to his crops, and this he won't be likely to obtain unless he is very industrious and manages well. OLMSTED'S PATENT STOVE.

THIS STOVE was invented and patented by Professor Olmsted of Yale College. It was originally designed for study chambers, but being found equally well adapted to family apartments, it came immediately into extensive use among the inhabitants of New Haven, and the demand for it here and elsewhere is rapidly increasing.

It is at present made chiefly of SHEET IRON, this material being esteemed on all accounts the the most eligible; but it may be constructed either wholly or in part of cast iron should that be preferred.

The chief peculiarity of this stove, consists of substituting for the open pipe usually employed to distribute the heat generated by anthracite coal, an apparatus called a RADIATOR, which though of comparatively small dimensions, has an effect in absorbing and distributing the heat produced by coal equal to that of a very long pipe. By this means, the unsightly appearance of a stove pipe, traversing the apartment, is avoided, while the saving of material greatly diminishes the expense. The Radiator consists of two concentric cylinders having a narrow space of half an inch to an inch between them, through which the heated current is made to circulate in its passage from the chamber of combustion to the chimney. The current is thus brought CLOSELY INTO CONTACT with the two contiguous surfaces, heating at once the outer and inner cylinder The former sends it heat into the apartment by direct radiation; the latter being open at the top and bottom, causes a current of air to flow through it like the chimney of an Argand lamp The air within being rarefied by heat, flows out in a continual current at the top, while the colder air of the apartment flows in at the bottom, and becomes heated in turn. This adds greatly to the effect, contributing more indeed towards heating an apartment, than the direct radiation from the surface, and equalling the temperature in a remarkable degree

The objects aimed at in the construction of this Stove are to be SIMPLE, so that domestics can easily manage it; to be quickly kindled; to be capable of affording either a MILD or an INTENSE HEAT, according to the state of the weather, to preserve the AIR of the apartment PURE AND WHOLESOME, to avoid all inconveniences from DUST, and finally, to be CHEAP and ECONOMICAL.

It is confidently believed, that this stove fulfils as many of the conditions, as any one now invented, and in a degree attainable only by an inventor, like the present, long and intimately acquainted with the laws of heat.

The CHAMBER STOVE is usually from 9 to 10 inches in diameter, and from 24 to 30 inches high. It is commonly on the hearth, in the usual place of the andirons. The fireplace being closed up, two pipes, one from the back of each cylinder, enters the wall thus formed, (or a sheet iron fire-board,) each pipe being furnished with a damper [illegible] and particularly to NURSERIES, affording as it does, peculiar facilities for warming liquids, or medicinal preparations.

The PARLOR STOVE has two radiators, and is capable of warming the largest rooms in ordinary houses.

[illegible] STOVE [illegible] by means of a long pipe, as in halls, at [illegible] Cost [illegible] and half a ton, [illegible] each in [illegible]

PURE BUFFALO OIL.

THE HAIR! THE HAIR! THE HAIR!

TRY it once, and not to the hair only, but it is surprising how it has recently been discovered that the genuine Buffalo Oil is a sovereign remedy for baldness, prevents the hair from coming off, promotes the growth, continues the luxuriance, [illegible] to any other animal or vegetable oil, and in case of fever, where the hair becomes dry and begins to fall off, there is no application more effectual in restoring its beauty and rendering it in a healthy state.

It is put up at a low price, (37½ cents) that all classes can have access to it. None [illegible] put up in flat bottles, with HAIR OIL impressed in the glass. Also, to prevent imposition, it will be signed by the Proprietor, Wm. Rosser, 251 Washington, corner of Eliot Street, Boston.

THE BEST MEDICINE FOR COUGHS AND COLDS

THIS balsam is a sure cure for Coughs, Colds, and all Lung complaints, Hooping Cough, Spitting of Blood, Pain in the Side, Liver Complaint, and affections of the breast, is Mrs. M. N. GARDNER'S INDIAN BALSAM OF LIVERWORT, containing the strength of many roots and herbs. Among the number are Liverwort, Elecampane, Boneset, Anchusa tinctoria, Iceland Moss, Squills, Hyssop, Rush gravelens; also many other herbs not to be procured in this part of the globe. For the last ten years this valuable Balsam has been in extensive use in most of the principal towns in the Northern States, and, by the persuasion of those that have tested its efficacy, the Proprietor has made arrangements to furnish the druggists of this place, that all may avail themselves of this remedy, before the disease gets so seated that no medicine will remove it. Its effect on obstinate coughs is truly wonderful, and the following individuals voluntarily give their name [illegible] knowledge of the materials, and the favorable effect upon our patients, where we have prescribed the above Balsam, we recommend it to be a valuable medicine for what it is recommended. Calvin Ellis, M. D., Albert Williams, M. D., members of the Massachusetts Medical Society. Also, see certificates on the direction, what astonishing cures it has effected in Wales, Bolton, Hollis Gall, Brunswick, Me., Thos. Hastings Jr., Boston, Elisha Horton, firm of Baker & Horton, Boston, David Woodbury, clerk of Josiah Steadman, Mfg. L. Howard. Thousands of others could be named, where it is best known. As a security against counterfeits, each direction will be signed by the Proprietor, M. N. Gardner. Proprietor's residence 281 Washington Street, Boston, where all orders can be addressed. Also observe on the bottle, impressed in the glass, the name Mrs. M. N. Gardner's Indian Balsam of Liverwort.

For sale in Bangor by G. W. Holden, and Whittier and Guild; in Portland, by J. Durgin & Co., and Wm. W. Lincoln, and by most of the wholesale Druggists in Boston. [illegible]

TO LOVERS OF COMFORT AND EASE.

TOOTH-ACHE! TOOTH-ACHE!!

Why will you suffer with the TOOTH-ACHE, when there is a perfect remedy?

BROWN'S EXTRACT OF GALL AND KREOSOTE will cure the Tooth-ache; also remove all unpleasant smell from the breath. From experience we can testify to this fact. J. A. Dill, 418 Washington Street, Miss Mary Henry, 174 Tremont Street, J. Tolman, 380 Washington Street, George Melvill, Lucas Place, Fitz Henry Stephens, master of transportation cars on Worcester railroad, and thousands of other references could be made. It removes all soreness, and frequently prevents them to be filled. It is considered by the inhabitants of Massachusetts, particularly in the city of Boston, where it is best known, and where the fortunate inventor resides, one of the greatest comforts to mankind that was ever discovered. It will remove this tormenting pain, the Tooth-ache. Be particular to call for Brown's Extract of Gall and Kreosote, and observe his signature as a security against counterfeits, as there are other articles in market intended to be palmed off for this invaluable preparation. It is now to be found in all the principal towns throughout the United States.

DR. BRANDRETH'S GRAINE PILLS

[illegible] Lives in the world, to kill, to kill!

[illegible] from to read, to live, to [illegible] by the very men who laugh at the [illegible] as a visionary fool [illegible] Faculty? Let this truth be impressed upon every mind that all pain and weakness proceed from the presence of morbid, stagnant, and corrupt humors in the blood, by which the circulation of the blood is impeded, and that the only sensible method is to remove them from the stomach & bowels. Take Brandreth's Pills, concocted from

From the pure products of the earth;

They will not, they cannot injure;

They often save, but never destroy.

BLEEDING ALWAYS Iimproper.

[illegible] Page 111. When the properties of BRANDRETH'S VEGETABLE UNIVERSAL PILLS shall have been appreciated, bleeding will no longer be thought of as a remedy for diseases, for in violent inflammations, eight or ten of them will take, in the course of twenty-four hours, more of the impure humors from the body, by the stomach and bowels, than bleeding to the extent of forty ounces could possibly have done, and it should be remembered that the Pills remove only those parts from the blood which were the cause of inflammation; whereas bleeding removes the essential parts also. How great the prostration of all the corporeal powers after a copious bleeding! On the contrary, what agility and strength is felt after a dose of this medicine; the body is indeed lightened of a load. Nothing is equal to ridding the system of impurities with a vegetable medicine of this kind, which 84 years have proved never to do injury, but always good. Is the pulse too high? A dose of these Pills will bring it down. Is it too low? the same means will increase it to a proper standard. Is there too much stagnation of blood? the Pills by so doing the system will allay it.

Thousands of the most respectable citizens of the United States will be referred to with pleasure by Dr. B. who have for many years been in the habit of being bled as often as four times in a year; and whose constitutions, in consequence, were becoming weaker and weaker, but who, since they have made use of these Pills, have never lost a drop of their precious blood. When any of their old symptoms appeared, instead of running to a Doctor and having a vein opened, they have swallowed six or eight Pills, which soon removed the vitiated humors that were impeding the blood in its circulation. Those sensible people, simply by the use of these invaluable Pills, are increasing every day the powers both of body and mind, which, by the practice of bleeding, were both becoming dreadfully impaired.

The following cases of cure by the use of Brandreth's Pills, alone, are submitted with respect, to the unprejudiced portion of the Boston public:

ASTHMA CURED. The following extraordinary case of Asthma, which is authenticated by seventeen respectable and well known inhabitants of Greenwich, Ct., deserves, by all persons, a careful perusal. The most prejudiced must own that evidence is on the side of these Pills, which, by the cures they are daily making show there is no necessity for any other medicine.

This is to certify that Thomas S. Brown of Greenwich, Ct., was taken with a cold, numb feeling, on the 13th of June last. He began to cough and raise phlegm and in the course of twenty four hours about two quarts of thick white jelly was expectorated. Three physicians in Stamford, Greenwich, and Sawpits, pronounced it a nervous humid spasmodic Asthma, and after prescribing for some time to no effect, the three consulted together, and finally declared that they could do him no good; it would and must result in consumption and death would ensue, and that in a very short time. The pain was excessive in all parts of his body, and the difficulty in breathing was such as almost to cause strangulation. He was reduced to a mere skeleton, and finally gave himself up to death. After being in this miserable state nearly two months, he saw an advertisement of Dr. Brandreth's Vegetable Universal Pills, and immediately sent by Capt. J. Waring of Greenwich, for a box, and found relief in the course of a few days, which encouraged him to persevere, and now having taken them for about four months according to the direction, is entirely recovered, and so far as we can judge, in consequence of taking the above Pills, which we have also used in our families, and have found them invaluable.

Signed: Greenwich, 23d Feb 1836.

James R. Mead, Daniel S. Betts, John H. Reynold, A. Palmer, Rev. R. Palmer, J. R. Palmer, H. Brewsley, S. Jessup, James Moore, Hannah Hitchcock, J. Mead, Thos Bertram, Isaac Olmstead, P. V. T. Jessup, Stephen Waring, John Limbry.

Certificate of John Goulden, who has known the above pills forty years.

I hereby certify, that I have known Brandreth's Vegetable Universal Pill for upwards of forty years they were used by my family connections, in the county of Dorset, England, since the year 1796, many of whom they cured of old standing complaints. JOSEPH GOULDEN.

Bridgeport, Feb. 18, 1836.

Certificate of cure of CHOLICS, FITS, &c. &c. From a BOSTONIAN, whose address is at the foot.

[TRUE COPY.]

To Dr. Benj. Brandreth:

My dear Sir. I write a few lines to inform you that I have been making use of your Vegetable Universal Pills. I have been afflicted with a complaint supposed to be caused by PAINT. I was subject to a great coldness through my whole system, attended with frequent pain and severe cholics; for the year, I have also been subject to fits, which would seize me in the night, and when I have come to myself, I have been as weak as a child. I am ready to state the facts more particularly, and how the medicine acted upon me, at my residence No. 17 Sudbury street, to any one who wishes to inquire.

I feel the medicine has been of very great service and that the disease under which I laboured have been by it ENTIRELY REMOVED, for which I shall ever feel grateful to Providence and to you.

Believe me to remain,

Very respectfully,

JOHN LUMMUS,

Boston 17 Sudbury street.
